

The intent of the Opioid Overdose Recovery Program (OORP) is to respond to individuals who have been reversed from opioid overdoses (by police, emergency responders, or friends/family) and are subsequently treated at hospital emergency departments as a result of the reversal. DMHAS, the Governor's Council on Alcoholism and Drug Abuse (GCADA) and the Department of Children and Families (DCF) have collaborated to provide funding for the 2-year project.

OORP utilizes Recovery Specialists and Patient Navigators to engage the individuals reversed from an opioid overdose to provide non-clinical assistance, recovery supports and appropriate referrals for assessment and substance use disorder treatment. The Recovery Specialists and Patient Navigators also maintain follow-up with these individuals for a minimum of 8 weeks after the initial contact. Recovery services provided for these individuals are fundamentally strengths-based. Additionally, Recovery Coaches and Patient Navigators deliver or assertively link individuals to appropriate and culturally-specific services and provide support and resources throughout the process. At minimum, recovery specialists are accessible and on-call from Thursday evenings through Monday mornings.

OORP is currently in operation in: Atlantic, Bergen, Camden, Essex, Gloucester, Hudson, Middlesex, Monmouth, Ocean, and Passaic Counties.

### **DMHAS Opioid Overdose Recovery Program Providers**
